

About CloudStreak Aviation:

CloudStreak Aviation (CS Aviation) is dedicated to assisting corporations and individuals acquire, sell, manage, maintain, and operate business aircraft from single engine executive aircraft to large corporate jets. CloudStreak is passionate about aviation and the aerospace industry which enables humankind to pursue the age old dream of flying and connects us today in commerce and global relationships, having become the ultimate business and personal tool.

CS Aviation can demonstrate the value of aircraft and return on investment, helping businesses and individuals become more productive, growing their business, reaching more people, and delivering the most precious assets of all - time, freedom, safety, and security. Business aircraft bypass the unfortunate reality of commercial travel - terminal congestion, cabin cramming, inflexible itineraries - into a different reality where you depart on your own terms. Private aircraft can access nearly 1,000 airports in Mexico and over 14,000 in the United States, compared to less than 100 and 1,000, respectively in the same countries, accessed by scheduled commercial air travel.

CS Aviation has clients in the U.S., Mexico, and South America, providing them with cost effective and efficient support. We have access to U.S. FAA Designated Airworthiness Representatives (DAR), FAA and Mexican DGAC Airframe & Powerplant (A&P) mechanics, Cessna Citation Type Rated Pilots, and a host of other aviation professionals. Our location in San Antonio, Texas, access to proprietary research tools, and broad aviation network, allows CS Aviation source the best aircraft that fit the client's needs. CS Aviation is part of CloudStreak LLC, which offers a full range of advisory, strategic, and process improvement services technology, aerospace, and international sectors. CloudStreak has a variety of small to large business clients, including DefenseWeb, a subsidiary of Humana Healthcare, OpTech, one of Inc 500's fastest growing businesses, and Sierra Industries, a leading business jet modification company.
